

ELECTRICITY RATE – 2014

HOW IS YOUR RATE DETERMINED?

Under Section 9.2 of the Terms and Conditions of the marina agreement with BC Hydro:

9.2 Resale of Electricity

If a customer wishes to sell electricity which the customer has purchased from BC Hydro to a tenant of that customer on the same premises on a metered basis, then the Customer shall agree that the selling price for such electricity shall not exceed the price which BC Hydro would have charged had that tenant been a customer of BC Hydro.

If a customer bought directly from BC Hydro, they would be a SMALL GENERAL SERVICE (SGS Schedule 1300) customer of BC Hydro. The marina has an SGS account with BC Hydro. The latest BC Hydro invoice below shows the SGS rate is 0.1346/kwh or **13.46 cents/kwh**. The rate is calculated by dividing the total dollar amount charged less GST & PST, by number of KWH used. (\$65.93/490)
